Contents Volume 82, 1998

Biogeochemistry of isotopes in soil environments: theory and application
L.C. Nordt, E.F. Kelly, T.W. Boutton and O.A. Chadwick 1
$\delta^{13}C$ values of soil organic carbon and their use in documenting vegetation change in a subtropical savanna ecosystem
T.W. Boutton, S.R. Archer, A.J. Midwood, S.F. Zitzer and R. Bol 5
The use of stable carbon isotopes for estimating soil organic matter turnover rates
M. Bernoux, C.C. Cerri, C. Neill and J.F.L. de Moraes. 43
Stable isotope composition of soil organic matter and phytoliths as paleoenvironmental indicators
E.F. Kelly, S.W. Blecker, C.M. Yonker, C.G. Olson, E.E. Wohl and L.C. Todd 59
The isotopic composition of soil and soil-respired CO_2
R. Amundson, L. Stern, T. Baisden and Y. Wang. 83
Quantifying pedogenic carbonate accumulations using stable carbon isotopes
L.C. Nordt, C.T. Hallmark, L.P. Wilding and T.W. Boutton 115
Stable carbon and oxygen isotopes in Quaternary soil carbonates as indicators of ecogeomorphic changes in the northern Chihuahuan Desert, USA
H.C. Monger, D.R. Cole, J.W. Gish and T.H. Giordano 137
Quantitative strontium isotope models for weathering, pedogenesis and biogeochemical cycling
B.W. Stewart, R.C. Capo and O.A. Chadwick 173
Strontium isotopes as tracers of ecosystem processes: theory and methods
R.C. Capo, B.W. Stewart and O.A. Chadwick 197
The hydrogen and oxygen isotope geochemistry of pedogenic clay minerals: principles and theoretical background
S.M. Savin and J.C.C. Hsieh. 227
Measurement of soil-water $\delta^{18}O$ values by direct equilibration with CO_2
J.C.C. Hsieh, S.M. Savin, E.F. Kelly and O.A. Chadwick 255
Oxygen isotopic composition of soil water: Quantifying evaporation and transpiration
J.C.C. Hsieh, O.A. Chadwick, E.F. Kelly and S.M. Savin 269

Reseach Papers
Localization of base cations in particle size fractions of acid forest soils (Vosges Mountains, N-E France)
J. Fichter, M.-P. Turpault, E. Dambrine and Jacques Ranger 295
Mineral evolution of acid forest soils in the Strengbach catchment (Vosges mountains, N-E France)
J. Fichter, M.-P. Turpault, E. Dambrine and J. Ranger 315
A micromorphological study on the development of humus profiles in heavy metal polluted and non-polluted forest soils under Scots pine
E.F. Dijkstra 341
Quantitative topographic analysis of gilgai soil morphology
I.V. Florinsky and H.A. Arlashina 359
